

Request for Your Output

The organizers thank all of you, first of all, for making contribution at the Study Group Workshop of Math-for-Industry.

This is the first trial in Japan for the study group for math-for-industry, and we plan to organize the study group once per year.

For better future organization, the committee highly appreciate your any feedbacks.

- Had you have suitable information of the style of the study group before the workshop?
- Do you think that the plenary session on 25 and 26 October, was organized in order that you can understand and decide which working group is most suitable to your interests and speciality?
- Do you think that 5 days as period is suitable?
- How many working groups did you join?
- The discussions at your working group was organized to be understandable?
- Did the discussions at your working group stimulate you (in any sense)? If so, how?
- The final reports were organized in order that you could understand the results from the working group?
- Will you join the next study group workshop?
- Please write the name, the affiliation, e-mail address if possible.
- Please write if any.

Please leave this to the box on the registration desk just outside of this hall or return to myama@ms.u-tokyo.ac.jp

Also you can find this form on the web
